Report on Limited Review of Interim Financial Statements

To The Board of Directors of Sixth of October for Development and Investment Company "SODIC"

Introduction

We have performed a limited review for the accompanying separate balance sheet of Sixth of October for Development and Investment Company "SODIC", as at September 30, 2012 and the related separate statements of income, cash flows and changes in equity for the nine-month then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these interim financial statements based on our limited review.

Scope of Limited Review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements 2410, "Limited Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters in the Company, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim financial statements.

Conclusion

Based on our limited review, nothing has come to our attention that causes us to believe that the accompanying separate interim financial statements do not present fairly, in all material respects, the separate financial position of the Company as at September 30, 2012, and of its separate financial performance and cash flows for the nine-month then ended in accordance with Egyptian Accounting Standards.

Emphasis of matter

Without qualifying our opinion

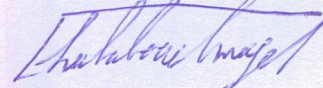

- Regarding to what has been mentioned in details in Note No.(17-c) related to total investment that had been injected for the Company's projects in Syria through the related parties accounts amounting to approximately L.E 445 million till September 30, 2012, the Company was unable to gather the appropriate information, which could enable it to disclose the effect, if any of the current events taking place on The Arab Republic of Syria on the values of the assets, liabilities and the results of operations in the foreseeable future. These amounts and results may differ

significantly in the foreseeable future when reliable indicators and signs become available, which enable the use of those indicators and signs in determining the extent and the impact of the current events on the carrying value of the assets and liabilities included in the financial statements. The Company's management believes that the debit balances due from related Companies in Syria are totally covered by the net value of the assets and properties of the projects in Syria, and the Company's management has no reason to make it believe that these debit balances need to be impaired despite the events that Syria encountering currently.

- On March 29, 2012 Sixth of October for Development & Real Estate Projects Co. "SOREAL" (Subsidiary 99.59% owned to Sixth of October for Development and Investment Company "SODIC") and related to what has been mentioned in details in Notes No.(8),(17) investments in the Subsidiary Company amounted to L.E 517 334 516 as at September 30, 2012, and the due balance from the subsidiary company amounted to L.E 587 476 719 as at September 30, 2012, has received a letter from the Urban Communities Authority (New Cairo City) dated March 14, 2012 stating that the main real estate committee in its session No. 9 as at January 18, 2012 has decided to cancel the allocation of land plot No. 16 in the investees southern investors east extension area which is allocated to the company and revocation of the contract dated March 13, 2005 and appendix dated September 3, 2006 due to the allegation that the Company has not committed to execute the project till to date. The Company's external legal consultant believe that the cancellation of allocation decision is against the provisions of law. The legal counselor is of the opinion the land at the current condition cannot be considered actually delivered to the Company according to sentence of the state council which judged in a similar case that as the government agencies have not provided the main infrastructure to the land according to what is agreed upon in the contract means that the actual delivering concept of the land have not been really achieved. Accordingly, the Company's management and its external legal consultant believe that the cancellation decision is against the provisions of law.
- As a result of what have been mentioned above, no impairment loss relating to investment and a due debit balance in Sixth of October for Development & Real Estate Projects Co. "SOREAL" was recognized as at September 30, 2012.
- As mentioned in details in note (53-2) There is a legal dispute between Sixth of October for Development and Investment Company "SODIC" and Solider – Egypt Company. The Company's management and its external legal consultant believe that the situation of Sixth of October for Development and Investment Company "SODIC" is positive in that dispute.

a) Recognition and measurement

- Fixed assets that are used in production, providing goods and services or for administrative purposes are stated at historical cost less accumulated depreciation and impairment losses (note No. 3-10). Cost includes expenditures that are directly attributable to the acquisition of the asset and necessary to have the asset ready for use in the purpose for which the asset was acquired.
- Where parts of an item of fixed assets have different useful lives, they are accounted for as separate items of property, plant and equipment.
- The assets under construction for production or rent or administrative purposes are registered at their cost less impairment losses, where the cost includes professional fees and all other direct expenditures that are directly attributable to the acquisition of the asset. Thus, calculation of depreciation begins when the asset is substantially completed and ready for its intended use.
- The cost of self-constructed assets includes the cost of materials, direct labor and any other cost directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

b) Subsequent costs

The Company recognizes the cost of replacing part of an item in the carrying amount of such an item of fixed assets, after disposal of the cost of this replacing part, when that cost is incurred and if it is probable that future economic benefits will flow to the Company as a result of replacing this part of such an item and the cost can be measured reliably. All other costs are recognized in the income statement as an expense as incurred.

c) **Depreciation**

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of Property, plant and equipment. The estimated useful lives are as follows: (Land is not depreciated)

<u>Asset</u>	<u>Years</u>
Buildings of the Company's premises	5 – 10
Vehicles	5
Furniture and office equipment	10
Office equipment and communications	5
Generators, machinery and equipment	5
Leasehold improvements	5 or lease term whichever is lower

3-3 **Projects under construction**

Projects under construction are recognized initially at cost. Cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Projects under construction are transferred to property, plant and equipment caption when they are completed and are ready for their intended use.

3-4 **Investment properties**

a) **Initial recognition and measurement**

This item includes lands held and not allocated for a specific purpose, or lands held for sale on long term as well as the lands and buildings leased to others (by virtue of operating leases). Real estate investments are valued at cost less the accumulated depreciation and "impairment"(3-10). The fair value of these investments are disclosed at the balance sheet date unless if there are cases where the fair value of these investments are difficult to be determined in a reliable manner. In this case such fact shall be disclosed.

b) **Depreciation**

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each type of investment properties. The estimated useful lives are as follows:

<u>Asset</u>	<u>Years</u>
Leased out units	50
Constructions of golf course	20
Irrigation networks	15
Golf course tools and equipment	15

3-5 **Investments**

a) **Investments in subsidiaries**

Subsidiary companies are the entities in which the "Company" investor has the ability to control its financial and operating policies of the entity this ability exists by possessing half of the voting power or more in the related subsidiary.

Investments in subsidiaries are stated – when acquired – at its acquisition cost. If a decline in the recoverable amount exists for any investment below the carrying amount "Impairment" (note No. 3-10), the carrying amount of the investment will be adjusted by the amount of such impairment and will be charged to the income statement for each investment.

b) Available -for- sale investments

Financial instruments held by the Company and classified as available-for-sale investment are initially stated at cost and subsequently measured at fair value (unless this cannot be reliably measured). Changes in fair value are reported as a separate component in equity. When these investments are derecognized, the cumulative gain or loss previously recognized in equity is recognized in income statement. Investments in unlisted securities or where the fair value of investment can not be determined in a reliable manner such investments are stated at cost less impairment losses (note No. 3-10). Impairment loss is recognized directly in the income statement. Financial instruments classified as available-for-sale investments are recognized / derecognized by the Company on the date it commits to purchase / sell the investments.

c) Held for trading investments

Held for trading investments are classified as current assets and are stated at fair value. Any gain or loss resulted from the change in fair value or sale of such investment is recognized in the income statement. Treasury bills is recognized by the net value less amortization and impairment losses (note No. 3-10).

3-6 Units ready for sale

Units ready for sale are stated at the lower of cost or net realizable value. The cost is determined based on the outcome of multiplying of the total area of the remaining completed units ready for sale at the balance sheet date by the average meter cost of these units (represents the cost of meter of land, utilities, building and other indirect expenses).

The net realizable value is determined based on the selling price on the ordinary course of business less the estimated costs for the completion and any other necessary costs to complete the sale.

3-7 Work in process

All costs relating to uncompleted work are recorded in work in process account till the completion of work. Work in process is stated in the balance sheet at cost or net realizable value whichever is lower. Costs include directly attributable cost needed to bring the units to the selling status for their intended use.

3-8 Trade and notes receivables, debtors and other debit balances

Trade and notes receivables are non- interest bearing and are stated at their nominal value and reduced by impairment losses note (3-10). Impairment is recognized when there is objective evidence that the Company is not able to collect the due amounts according to the original terms of contracts. Impairment is the difference between the book value and the recoverable amount which represents the expected cash in flow for the Company.

Long term trade and notes receivables are initially recognized at fair value and subsequently re-measured at amortized cost using effective interest rate method.

3-9 Cash and cash equivalents

For the purpose of preparing statement of cash flows, cash and cash equivalents comprise cash at banks and on hand, time deposits which have maturity date less than three months from the purchase date. Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management.

3-10 Impairment of assets

a) Financial assets

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognized in income statement. Any cumulative loss in respect of an available-for-sale financial asset recognized previously in equity is transferred to income statement.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized for financial assets measured at amortized cost and available-for-sale financial assets that are debt securities, the reversal is recognized in income statement. For available-for-sale financial assets that are equity securities, the reversal is recognized directly in equity.

b) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than, investment property, units ready for sale and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at each reporting date.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognized in the income statement.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3-11 Provisions

Provision is recognized in the balance sheet when the Company has a present legal or constructive obligation as a result of past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability.

Provisions are reviewed at the balance sheet date, and revised - when necessary - to reflect the current best estimate.

a- Provision for completion

A provision for completion of work is formed at the estimated value of the completion of the projects (relating to the units delivered to customers and the completed units according to the contractual terms and conditions and the completed units for which contracts were not concluded) this is based on technical studies and measurement to estimate the cost, which are prepared by the Company's technical departments. The necessary provision is reviewed at the end of each reporting period till finalization of all the project works.

3-12 Borrowing costs

Borrowing costs are recognized as expense in the income statement when incurred using the effective interest rate.

3-13 Interest –bearing borrowings

Interest – bearing borrowings are recognized initially at fair value, net of attributable transaction costs incurred. Borrowings are subsequently stated at amortized cost, any differences between cost and redemption value are recognized in the income statement over the period of the borrowing using the effective interest rate.

3-14 Suppliers, contractors and other credit balances

Suppliers, contractors and other credit balances are stated at cost.

3-15 Share capital

Common shares are classified in the owners' equity.

a) Issuance of ordinary shares

Incremental costs directly attributable to issue of new ordinary shares are recognized as a deduction from equity net of income tax ,if any,.

b) **Treasury shares**

In case of repurchase of the Company's own shares, the amounts paid for repurchase includes all the direct costs attributable to the repurchase and such amount is classified as treasury shares deducted from the shareholders equity.

c) **Dividends**

Dividends are recognized as a liability in the year in which they are declared.

d) **Finance of the incentive and bonus plan**

Equity shares issued for the purpose of the incentive and bonus plan of the Company's employees and managers which are financed by the Company are presented as shares kept for incentive and bonus plan and are included in equity. The resulting outcome from sale of these shares is recognized in equity.

e) **Reserves**

As per the Companies' law and the Company's articles of incorporation, 5% of the net profit of the year is set aside to form the legal reserve.

Transfer to the legal reserve may be suspended once the reserve reaches 50% of the Company's issued capital. However, if the reserve balance falls below 50% of the Company's issued capital then transfers to the legal reserve become required to be resumed by setting aside at least 5% of the net profit for the year.

The transferred amount can be recorded at the period in which the general assembly authorized such transfer.

3-16 **Share – based payments transactions**

a) **Equity settled share – based payments**

The difference between the grant date fair value of shares and the amount incurred by the beneficiary of the employees and managers bonus and incentive plan is recognized in the income statement over the year that the beneficiaries become unconditionally entitled to these shares. The expected number of beneficiaries from the plan and the extent of their benefit are reviewed at the financial statements date. Necessary changes are made for the expense to reflect the best estimate and the corresponding amount is included in equity under "set aside amount for the bonus and incentive plan" caption.

b) **Cash settled share - based payments**

Share Appreciation Rights are granted to some of the Company's directors as part of their salaries and compensation package that entitles them to future cash payments based on the increase in the share price of the Company over determined level for certain year of time. The amount or the value of the purchased services and incurred liabilities is measured at the fair value of the said liability and until the settlement of such liability, the Company re-measures the fair value of the liability at each financial position date and at settlement date and takes into account any changes in the recognized fair value of the liability in the income statement.

3-17 **Notes payable**

Notes payable are stated at amortized cost using the effective interest rate method.

3-18 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and is recognized when it is probable that the future economic benefits associated with the transaction will flow to the company and the amount of the revenue can be measured reliably. No revenue is recognized if there are uncertainties regarding the recovery of the consideration due or associated costs.

a) Sales revenue

Revenue from sale of residential units, offices, commercial, service units and villas for which contracts were concluded is recorded when all the ownership risks and rewards are transferred to customers upon the actual delivery of these villas and units whether the said villas and units have been completed or semi – completed. Revenue from sale of lands is recorded upon the delivery of the sold land to customers and the transfer of all the ownership rewards and risks to buyer. Net revenue from sales are recorded after deducting discounts and sales returns. Net sales are represented in the selling value of units and lands delivered to customers after excluding the future interests that have not been realized till the balance sheet date and after deducting the value of sales returns (represented in the saleable value of the sales returns less unrealized interests that have been previously excluded from the saleable value), and also, after excluding the value of any given discounts to the customers. The discounts are recognized as other operating expenses.

b) Rental income

Rental income resulted from investment properties (less any discounts) is recognized in the income statement on a straight-line basis over the terms of the lease.

c) Interest income

Interest income is recognized in the income statement, using the accrual basis of accounting, considering the period of time and effective interest rate.

d) Dividends

Dividends income is recognized in the income statement on the date the Company's right to receive payments is established.

3-19 Cost of sold lands

The cost of the sold lands is computed based on the value of the net area of land in addition to its respective share in road areas as determined by the Company's technical management, plus its share of all open area cost, service areas and cost of installation and utilities.

3-20 Expenses

a) Lease payments

Payments under leases are recognized in the income statement (less any discounts), on a straight-line basis over the terms of the lease, using the accrual basis of accounting.

b) Employees' pension

1. Pension obligations

The Company contributes to the government social insurance system for the benefit of its personnel in accordance with the social insurance law No. 79 of 1975 as amended. Under this law, the employees and the employers contribute into the system on a fixed percentage-of-salaries basis. The Company's liability is confined to the

amount of its contribution. Contributions are charged to income statement using the accrual basis.

2. Employees' profit sharing

As per the Companies Law, employees are entitled to receive not less than 10% of the distributed profits, after deducting a percentage to support the legal reserve, according to the rules proposed the Company's board of directors and after the approval of General Assembly Meeting which should not exceed the total employees' annual salaries.

Employees' share in profit is recognized as dividends of profit and shown in the statement of changes in equity and as a liability in the financial period at which the declaration has been authorized by the shareholders.

3-21 Income tax

Income tax on the profit or loss for the period/year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the net taxable income for the year, using tax rates enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax assets/liabilities provided is determined using tax rates enacted at the balance sheet date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized in the future years.

3-22 Earnings / (losses) per share

Earning / (loss) per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period/year.

4- Determination of fair values

The Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

4-1 Investments in equity instruments

The fair value of held for trading investments and available -for- sale investment is determined by reference to market value declared to these shares in stock market at the financial statements date.

4-2 **Trade, note receivables and other debtors**

The fair value of trade, notes receivable and other debtors is estimated as the present value of future cash flows, discounted at the market rate of interest at the financial statements date.

4-3 **Investment property**

The fair value is based on market values, being the estimated amount for which property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and in free will.

4-4 **Share – based payment transactions**

The fair value is determined by reference to market value declared at the balance sheet date without deducting the cost related to transactions.

5- **Financial risk management**

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company management of capital. Further quantitative disclosures are included throughout these financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The management also identifies and analyzes the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

The Company, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. The Board of Directors of the Company is assisted in its oversight role by the Audit Committee and Internal Audit. Internal Audit undertakes both regular and sudden reviews of risk management controls and procedures, the result of which are reported to the Board of Directors.

5-1 **Credit risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss. This risk is mainly associated with the Company's customers and other receivables.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Company's customer base, including the default risk of the industry.

Almost all of the Company's revenues is attributable to sales transaction with a vast group of customers. Therefore, demographically, there is no concentration of credit risk.

The Company's management has established a credit policy under which each customer is subject to credit valuation before the Company's standard payment and delivery terms and conditions are offered to him. The Company obtained advance payments and cheques covers for the full sales value in advance and before the delivery of units to customers. No previous losses were observed from transactions with customers.

Sales of units are made subject to retention of title clauses and the ownership title is transferred after collection of the full sales value. In the event of non-payment, the unit is returned to the Company and the amounts collected from customers are repaid at the default date after deducting a 5 % to 10 % of this value.

Investments

The Company manages the risk via conducting a detailed investment studies which reviewed by the board of directors. Company's management does not expect any counterparty to fail to meet its obligation.

Guarantees

The Company's policy is to provide financial guarantees only to subsidiaries, it needed, and after the approval of the board of directors. At September 30, 2012, no guarantees were outstanding.

5-2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due , under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company ensures that it has sufficient cash on demand to meet expected operational expenses for appropriate period of time including the cost servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Company maintains the following lines of credit:

- L.E 435 million as long-term loans guaranteed by a promissory note amounting to the whole amount of the loan. Interest would be payable at the rate of 2.85 % per annum above the CORRIDOR of borrowing rate declared by the Central Bank of Egypt.
- A facility amounting to L.E 45.5 million covered by a guarantee of time deposits amounting to L.E 50 million.

5-3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income and expenses or the value of its holding of financial instruments.

The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

5-4 Currency risk

The Company is exposed to currency risk on sales and financial assets that are denominated in a currency other than the respective functional currencies of Company entities, primarily the US dollar.

In respect of other monetary assets and liabilities denominated in other foreign currencies, the Company ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

The Company's investments in its subsidiaries are not hedged as those currency positions are considered to be long-term in nature. The Company does not enter into currency risk hedging contracts.

5-5 Interest rate risk

The company adopts a policy to limit the company's exposure to interest rate risk, therefore the Company's management evaluate the available alternatives for finance and negotiating with banks to obtain the best available interest rates and conditions. Borrowing contracts are presented to the board of directors. The finance position and finance cost is periodically evaluated by the Company's management. The Company does not enter into hedging contracts for interest rates.

5-6 Other market price risk

Equity price risk arises from available-for-sale equity securities and management of the Company monitors the mix of equity securities in its investment portfolio based on market indices or an objective valuation of the financial statements related to these shares.

Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board of Directors.

The primary goal of the Company's investment strategy is to maximize investment returns. Management is assisted by external advisors in this regard.

In accordance with this strategy certain investments are designated at held for trading because their performance is actively monitored and they are managed on a fair value basis.

5-7 Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Board of Directors monitors the return on capital, which the Company defines as net profit for the period divided by total shareholders equity. The Board of Directors also monitors the level of dividends to ordinary shareholders.

There were no changes in the Company's approach to capital management during the period. The Company is not subject to externally imposed capital requirements.

Considering current situation in Arab Republic of Syria, that has a significant impact on the economic sectors, in general, a matter which may lead to a decline in the economic activities. Therefore, there is a possibility that the said events will have a significant impact on the assets, liabilities, its recoverable/settlement amounts and the results of operations in the foreseeable future. At the present time, it is not possible to quantify the effect on the assets and the liabilities included in the company's financial statements, since quantifying the effect of these events relies on the expected range and the time when these events, and its consequences, are expected to be finished.

Despite of the events that The Arab Republic of Syria has encountered, which are mentioned in the previous paragraph, the management of the Company believes that the balances due from Syrian Companies and projects are guaranteed and fully recoverable, as the fair values of the assets and the properties of the projects in Syria are higher than the book value of the investments and the balances due from the companies in Syria, this laied on reports of valuation from an independent expert dated June 15, 2012, Also, generally, there is no restriction on the ownership transfer of these lands except for the pledge of some lands for the benefit of the lending banks, it is worth mentioned that the fair values of the assets of the project is adequate to settle all its liabilities, to cover the investments value and to settle the due balances to the associate companies and the Company has no information regards any problems related to the custody and ownership of these lands.

Legal status

There is a dispute between the Company and a third party regarding the contract concluded between them on 23/2/1999 which is related to delivering this party a plot of land as a usufruct right for indefinite year of time and a return for an annual rental with a minimal amount for a total of 96 faddens approximately and which has not been delivered up till this date as the management of this party did not abide by the detailed conditions of the contract. There are exchanged notifications concerning this land between the management of the Company and the management of the third party. During 2009, this party raised a court case No. 3 of 2009 Civil 6th of October against the Company asking it for the delivery of the allocated land. A preliminary sentence was issued by the court in its session held on February 22, 2010 to refer this matter to Experts and to delegate the Experts Office of the Ministry of Justice to embark this case and set a session to be held on April 26, 2010 for the expert to present his report. The session was postponed by the court several times and the last one will be held on November 26, 2012. The Company's legal counselor is of the opinion that the Company has the right to maintain and exploit this land under the contract as the said contract has not been affected and no usufruct right has been arisen to this party since its effect was based on conditions that have not been met. In addition, in case of any dispute raised by this party to possess the land, the Company has the actual and physical possession of the land and hence it has the right to continue in possessing the land till settlement of this dispute in front of court.

50- Tax status

Summary of the Company's tax status at the separate financial statements date is as follows:

Corporate tax

- A ten – year corporate tax exemption period starting from the year following the date of the activity inception as of 1/1/1998 until 31/12/2007 has been previously granted according to Law No. 59 of 1979 concerning the New Urban Communalities.
- During January 2011, the Company submitted a request to the Tax Authority demanding the amendment of the tax exemption period to start from the date of the actual handing over of the units in the year 2002.
- On January 18th, 2011, the Disputes Dispersal Committee of the Tax Authority considered and studied the Company's request in the light of the date of the actual handing over of the units and the regulations applicable to similar companies. Accordingly, the said committee decided to approve the Company's request thus considering the date of the actual business activity of the Company to be the year 2002, hence, the Company shall be entitled to tax exemption from 1/1/2003 to 31/12/2012, and the amendment was annotated in the Company's tax card.
- The amended tax return for year 2008 was submitted to the Tax Authority.
- The Tax Authority assessed corporate profit tax and moveable income tax for the years from 1996 till 2000 on deemed basis. 53-

Significant events53-1 The land belongs to Sixth of October for Development and Real Estate Projects Co. "SOREAL"

- As at December 1, 2011 Sixth of October for Development and Real Estate Projects Co. "SOREAL" (A Subsidiary 99.99% owned by Sixth of October for Development and Investment Company "SODIC", As shown in notes (8),(17) the investments in the subsidiary as at September 30, 2012 amounts to L.E 517 334 516 and the due balance from the subsidiary amounts to 587 476 719 – With a request to the Ministerial Committee for resolving investment disputes relating to the dispute with the Urban Communities (Governance of New Cairo City), as the authority didn't fulfill its contractual and legal obligations and authorize the designs submitted by the Company since a period of time.

- A letter from the General Authority for Investment and free zones has issued as at March 6, 2012 to Vice president of New Urban Communities (Governance of New Cairo City). Stating that:
- "At the light of what has been discussed about the subject in the Ministerial committee for resolving investment disputes as at March 5, 2012 in the presence of representatives of the Urban Communities and the Governance of New Cairo City who stated the issuance of the decision of real estate committee of Urban Committee to withdraw the said land plot and the representatives of the company has asked to cease the execution of the said decision as the subject still under study as a preclusion to be submitted to the Ministerial committee for resolving investment disputes. Kindly, to consider the possibility of freezing any procedures against the mentioned Company from the side of Urban Committees till the ministerial committee for resolving investment disputes takes its decision about the request of the Company".
- It worth mentioning that the Ministerial committee for resolving investment disputes is formed by the decision 461 for the prime minister which is issued according to article 66 of the Law of investments guarantees and incentives No. 8 for the year 1997 to consider the transfer of claims and disputes of investees with Government administrative bodies and the decisions of that committee are conclusive and obligatory to Government administrative bodies where it is not obligatory to investors in the case that the decision is not satisfactory for the investor where he still has the right to refer the issue to the administrative court of law to preserve all his rights.
- Although, the Company, as at March 29, 2012 has received a letter from the Urban Communities Authority (New Cairo City) dated as march 14, 2012 stating that the main real estate committee in its session No. 9 as at January 18, 2012 has decided to cancel the allocation of land plot No. 16 in the investees east extent area which allocated to the company and revocation of the contract dated as March 13, 2005 and appendix dated as September 3, 2006 and this is because of the fact that the Company has not committed to execute the project till to date, which force the Company to take all the necessary legal procedures regarding that issue, including raising the case No.48136 for the year 66 in front of the Administrative Court in the State Council against the minister of housing and others regarding the land of New Cairo requesting to stop and cancel the decision to cancel the allotment because it is against the facts and the law, as it is against the contract which states that supplying the main utilities to the land borders and the authority obligation to authorize the submitted designs which the authority didn't fulfill, beside that there is no justification for the decision from the authority to cancel the allotment especially with adherence of the Company to pay the price of the land in full and its permanent care to execute the project, which is the case to be determined in the case in September 1, 2012 in front of the investment court in the State Council and both of the Minister of Housing, Urban committees and the authority of New Cairo City has been notified regarding that case, and it has been postponed for several time, last one was at November 3, 2012 to submit the documents by the authority

And as at November 3, 2012 the session had been attended and the requests of the Company include:

First: Accepting the case formally

Second: Immediately, stopping executing the appealed decision as it includes cancellation the allotment of the land plot referred to for the Company and revocation the contract dated as March 13, 2005 and its appendix with the Company as at September 3, 2006 and its consequences

Third: About the subject of cancellation the appealed decision and its consequences and compulsion the Managerial party with the expenses and the lawyers' fees

And the case has been impounded to be judged immediately at December 15, 2012

- The Company's management has consulted the external legal consultant of the Company who concluded his opinion as follows:

- 1 The selling contract concluded as March 13, 2005 between the Authority and the Company stated a contractual liabilities between the two parties one of which is the commitment of the authority to deliver the land to the Company immediately upon concluding the contract but the delivery had been at November 14, 2006 which is more than 20 months after the agreement date and the governance of new Cairo city sent a letter dated as August 24, 2006 which stated that the related authorities had agreed to start the execution period from the issuance date of the ministry decision and receiving the project's land by the Company
- 2 The assigned date by the Urban Committees to complete the project is at July 17, 2012 according to what is stated in the letter from the governance as at January 18, 2011.
- 3 The allocated land is not suitable to be used for the project before July 15, 2010 according to what is stated in the letter of armed forces as at February 27, 2012 which stated that an area of 84 Hectare (200 Fadden) has been purified from the previous war disposals as at July 15, 2010 in the location of (Kattameya plaza" behind the future University" – land plot No. 16- East town "behind New Cairo American University").
- 4 The agreed utilities have not been supplied on the borders of the land which is confirmed by the letter of water and sewage Company dated November 30, 2011 which confirmed that the main water purification station which will supply the extension is uncompleted and it also confirms that the temporary water supply is not suitable with the allocated space and during the summer period starting from the beginning of July till the end of October the water does not reach the extension area where the Company's project land is allocated also this is confirmed by the letter of the Authority as at November 21, 2011 and it is the same case for electricity and sewage.
- 5 The Authority did not commit to authorize the detailed designs drawings and the modified general design of the project which is submitted to the Authority since September 6, 2010, November 22, 2010, March 1, 2011 which is more than 18 months and till now. It is well known that the Company cannot work in the project before these drawings are authorized despite that the Company submitted it to be authorized during the contract period when the Authority committed to do so.

- 6 The Authority did not commit to authorize the technical drawings for the internal network of the utilities which was submitted by the Company as at November 10, 2010 when the Authority committed to do so.
- 7 The subsidiary Company "Soreal", has paid the price of the land in full and prepared the designs of the project which charged it costs
- 8 The Company got the Contracted plot of land from the authority due to backwardness of the authority of delivering its specified land in the 6th of October city where the authority failed to deliver it to the Company because of the occupations and adverse possession after more than 7 years from the first contracting.
- 9 The authority of Urban Committees and the Governance of New Cairo City has issued a license and accept payments for reviewing the drawings after the date.
- 10 Also the authority of Urban Committees had cancelled its decision to withdraw the land in similar cases as the purification station, its feeding source, was not ready yet.
 - As a result of all what mentioned above, the external legal consultant believes that the decision from the authority to cancel the allocation is against the facts and the law, specially that the land at this condition was not suitable to execute the project before July 15, 2010, according to the letter of the armed force, beside that the authority didn't authorize the submitted designs to enable the Company to proceed in the project, beside that the land can't be considered actually delivered to the subsidiary according to state council sentences which judged in a similar case that as the governmental bodies did not supply the main utilities to the land according to what is agreed upon in the contract, it means that the actual delivering concept of the land did not really achieved, and this is supported by the opinion of the legal consultant of the Housing Minister, who confirms that the execution periods cannot be applied against the related parties except from the date when all necessarily utilities are completed to be used which is also confirmed by the real estate regulation (amendment article 16 paragraph 4) which states that it is not allowed to cancel allocation before all the necessary utilities are provided to the location which allow it to be used.
 - According to what is mentioned above the management of the Company and its legal consultant believe that the cancellation decision was against the law.
 - As a result of what have been previously mentioned, no impairment loss for the investment in Sixth of October for Development and Real Estate Projects Company "SOREAL" has been recorded in September 30, 2012.

53-2 The legal dispute with Solider – Egypt Company

- During the year 2007 an agreement for cooperation had been signed between the Company and the Solider International – Lebanon Company to establish real estate project, the agreement includes an option for purchasing 250 000 m² from the company's land in West Town project in El-Sheikh Zayed.
- In the year 2008, Solider International Company had activated the practice of the purchasing option through Solider – Egypt Company for investment and real estate development "Solider – Egypt" - wholly owned Company to Solider International Company -, and Solider Egypt had paid the option value which

amounts to L.E 162 million after early payment discount as a result of early payment.

- Till September 11, 2012, Solider Egypt Company didn't develop the purchased land, accordingly didn't fulfill its contractual obligations, which makes Sodic Company takes the legal procedures as at September 11, 2012 toward Solider International and Solider Egypt Company after the Company submitted a request to Ciaro Regional Center for International Commercial Arbitration under the No. of 849 for the year 2012 requesting a sentence admitting the revocation occurrence of the agreed contracts between the Company, Solider International Company and Solider Egypt Company because they didn't fulfill their contractual obligations beside requesting the necessary compensations because unfulfilled the agreements to perceive the Company's and its shareholders rights.
- As at September 19, 2012 the Company has been notified that Solidier Egypt for investment and real estate development "Slidier Egypt" as at September 16, 2012 has raised arbitration claim under the No. of 852 for the year 2012 following the Company's one for the same subject and the same dispute asking the Company to paid an amount of L.E 237.5 million (before early payment discount) in addition to interests and expenses.
- The management of the Company and its external legal consultant believes that:
The situation of Sodic Company in that dispute is positive beside that, Sodic Company has legal evidences to disproof the evidences and says of Solider Egypt Company according to the common intention within the parties and the concluded contracts, and as both cases still in their early stage, the financial effect which could result from the mentioned legal dispute can't be determined in the current time.
