Auditor's Report **To the Shareholders of Sixth of October** **for Development and Investment Company “SODIC”**

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Sixth of October for Development and Investment Company “SODIC” (S.A.E.), which comprise the consolidated statement of financial position as at December 31, 2021, and the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Consolidated Financial Statements

These consolidated financial statements are the responsibility of Company's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Egyptian Accounting Standards and in the light of the prevailing Egyptian laws, management responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; management responsibility also includes selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and in the light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Hazem Hassan

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Sixth of October for Development and Investment Company "SODIC", as at December 31, 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the Egyptian Accounting Standards and the Egyptian laws and regulations relating to the preparation of these financial statements.

Report on Other Legal and Regulatory Requirements

The financial information included in the Board of Directors' report, prepared in accordance with Law No. 159 of 1981 and its executive regulations, is in agreement with the Company's books of account, according to the limits of this information in books.

1. Background and activities

1-1 Sixth of October for Development and Investment Company “SODIC”– An Egyptian Joint Stock Company – was incorporated in accordance with the provisions of Law No. 159 of 1981 and its Executive Regulations and considering the provisions of Law No. 95 of 1992 and its Executive Regulations and by virtue of the decree of the Minister of Economy and International Cooperation No. 322 of 1996 issued on May 12, 1996. The Company was registered in Giza Governorate Commercial Registry under No. 625 on May 25, 1996.

1-2 The purpose of the Company is represented in the following:

- Land acquisition and the subsequent sale/lease to clients after connecting the relevant infrastructure.
 - Operating in the field of construction, integrated construction and supplementary works.
 - Planning, dividing and preparing lands for building and construction according to modern building techniques.
 - Building, selling and leasing all various types of real estate.
 - Developing and reclaiming land in the new urban communities.
 - Operating in the field of tourism development and tourism related establishments including, building, managing, selling or utilizing hotels, motels and tourist villages in accordance with applicable Egyptian laws and regulations.
 - Building, managing, selling and leasing –residential, service, commercial, industrial and tourism projects.
 - Importing and operating as trade agents within the allowable limits of the Company’s purpose (not with the purpose of trading)
 - Financial leasing in accordance with Law No. 95 of 1995.
 - Working in all fields of information technology and systems, hardware and software (computer software and services).
 - Operating in fields of communication systems, internet, space stations and transmission except for the field of satellites.
 - Investing in the various activities related to petroleum, gas and petrochemicals.
 - Operating in the field of coordinating and planting gardens, roads and squares and also providing security, steward - ship, maintenance and cleaning services.
 - Operating in the field of ownership and management of sporting, entertainment, medical, educational buildings and also ownership, management and operating of restaurants.
 - In addition, the Company may have interest or participate in any manner with companies or others that share similar activities or which may assist it to achieve its purposes in Egypt or abroad.
- Also the Company is entitled to merge into or acquire the aforementioned companies or make them subsidiaries in accordance with the provisions of law and its executive regulations.

1-3 The Company's duration is 50 years starting from the date of registration in the Commercial Registry.

1-4 The Company is listed on the Egyptian Exchange.

1-5 The interim consolidated financial statements of Sixth of October for Development & Investment Company “SODIC” (the Parent Company) for the financial year ended December 31, 2021 comprise the financial statements of the Company and its subsidiaries (together referred to as the “Group”) and the Group’s interest in the profit or loss of associates and joint ventures.

The registered office of the Parent Company is located at Km. 38 Cairo / Alexandria Desert Road, Sheikh Zayed City. Mr. Talal Al Dhiyebi is the Chairman for the Parent Company and Mr. Magued Sherif, is the Managing Director of the Parent Company.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

2. Basis of preparation of consolidated interim financial statements

Compliance with accounting standards and laws

- The consolidated financial statements have been prepared in accordance with Egyptian Accounting Standards and applicable laws and regulations.
- The consolidated financial statements were approved by the Board of Directors on March 7, 2022.
- Details of the Group's accounting policies are included in Note (53).

3. Functional and presentation currency

- The consolidated financial statements are presented in Egyptian Pounds, which is the Company's functional currency.

4. Use of judgment and estimates

- In preparing the consolidated financial statements in accordance with Egyptian Accounting Standards (EAS), management has made judgments, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and assumptions are based on past experience and various factors. Actual results may differ from these estimates.
- Estimates and underlying assumptions are reviewed on an ongoing basis.
- The recognition of the change in accounting estimates in the period in which the change in estimate, if the change affects only that period, or in the period of change and future periods if the change affects both.

A- Judgments

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

- Revenue recognition: revenue is recognized as detailed in the accounting policies applied.
- Equity-accounted investees (associates Companies): whether the Company has significant influence over an investee.
- Lease contracts classification.

B- Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at December 31, 2021 that might have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.
- Measurement of ECL for cash at banks, trade and notes receivables and other financial assets.

C- Measurement of fair values

Certain number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Accreditation is measured in the fair value of assets and liabilities mainly on available market data, and the data that is relied upon in the evaluation is classified according to the following hierarchy:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs of the quoted prices included in level (1) that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company recognizes transfers between levels of the fair value hierarchy at the end of the financial year during which the change has occurred.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

Further information about the assumptions made in measuring fair values is included in the following notes:

- Share-based payments
- Financial instruments
- Investment properties

5. Changes in significant accounting policies

On March 18, 2019, the Minister of Investment and International Cooperation introduced amendments to some provisions of the Egyptian Accounting Standards issued thereby by virtue of Decree No. 110 of 2015, which include some new accounting standards as well as introducing amendments to certain existing standards.

On April 12, 2020 the Egyptian Financial Regulatory Authority has agreed to postpone the application of the new Egyptian Accounting Standards on the periodic financial statements that will be issued during the year 2020

On September 17, 2020, the Prime Minister issued Decree No. 1871 of 2020 to postpone applying the following Egyptian accounting standards to January 1st, 2021.

- a) Egyptian Accounting Standard No.47 "Financial instruments"
 - b) Egyptian Accounting Standard No.48 "Revenue from Contracts with Customers"
 - c) Egyptian Accounting Standard No. 49 "Lease contracts"
- The Group management has decided to early adopt Egyptian Accounting Standard No. 47 "Financial instruments", Egyptian Accounting Standard No. 48 "Revenue from Contracts with Customers", and Egyptian Accounting Standard No. 49 "Lease contracts" from January 1, 2020.

6. Real estate sales

The Group's operations are considered to fall into one broad class of business, sale of real estate units and hence, segmental analysis of assets and liabilities is not considered meaningful. The Group's revenues can be analyzed as follows:

	2021	2020
	<u>EGP</u>	<u>EGP</u>
Revenues from the sale of Sodic projects in West Cairo	1 435 108 232	1 807 689 025
Revenues from the sale of Sodic projects in East Cairo	4 756 563 341	3 006 229 654
Revenues from the sale of Sodic projects in North Coast	76 258 421	327 557 093
	6 627 929 994	5 141 475 772
Sales returns	(26 975 338)	(29 166 829)
	6 240 954 656	5 112 308 943

	<u>14 184 447 190</u>	<u>14 375 083 694</u>

- Includes an amount of EGP 884 831 689 representing the value of capitalized interest on installments collected from customers.

(19-1) West Cairo projects costs

- A-** Al Yosr for Projects and Agricultural Development ("Al Yosr"), SODIC's fully owned subsidiary. Al Yosr has received a letter from the New Urban Communities Authority ("NUCA") with respect to the 300-acre plot (circa 1.26 million square meters) of land owned by Al Yosr and located in the Sheikh Zayed City extension area as determined by the presidential decree number 77. The letter informs Al Yosr of NUCA's Board of Directors decision regarding the payment required to be made by land owners in order for NUCA to deliver infrastructure to the plot and change the land usage from agricultural to residential, increasing the allowable built up area within the limits of Republican Resolutions (77-230 of 2017). In consideration for the above Al Yosr will make an in-kind payment of 50% of the land.

On July 11, 2019, an agreement was concluded between Al Yosr and the New Urban Communities Authority (NUCA) to relinquish 50% of the above mentioned plot in return for delivering infrastructure to the plot and change the land usage from agricultural to residential, the project Master plan was submitted to the New Urban Communities Authority and was approved. The first phase of the project was launched on 29 September 2019 under the name of The Estates.

- B-** The balance includes the net present value of the plot of land previously ceded to the New Urban Communities Authority referred to above in paragraph (A) with an amount of EGP 1.24 billion in addition the company paid the value of administrative expenses and the Board of Trustees amounting to EGP 18.54 million .On September 1, 2021, the New Urban Communities Authority approved the request submitted by the one of SODIC subsidiaries to purchase the plot of land that were previously assigned to The Authority with an area of 123.38 acres, equivalent to 518,329.62 square meters see Note (35-1).

Notes to the consolidated financial statements for the financial year ended December 31, 2021

C- Company's Land settlement in El Sheikh Zayed

The balance includes approximately EGP 268 million representing the present value at inception of the share of the work under construction from the settlement amount of the Company's land in Sheikh Zayed as a component of the cost of the units whose revenues will be recognized in the statement of income or losses for future years, this amount represents the remainder of the present value of a total settlement amount of EGP 800 million with the Illicit Gains Authority ("IGA").

- D-** The balance includes an amount of EGP 4 491 028 070 representing the net present value of the project's minimum land payments for the 500 acres in Sheikh Zayed extension in addition to the capitalized interests in accordance with the co-development agreement between the Company and the Urban Communities Authority with a minimum guarantee to the Authority of EGP 11.413 billion as shown in detail in note (36).

On July 15, 2021, a letter was received from the Ministry of Housing, Utilities & Urban Communities ("The Ministry") regarding the 500-acre plot in New Zayed currently being developed by the company in co-development with the New Urban Communities Authority ("NUCA"). The letter refers to some changes to the New Zayed area plans at large including the development of new projects adjacent to the aforementioned land plot, which would affect the company's project on the plot. Accordingly, the location of the 500-acre plot is being adjusted in a way that preserves the nature and all components of the project and maximizes the benefit from these changes. The new location will be presented to NUCA's Board of Directors.

On August 26, 2021, a letter was received from the Sheikh Zayed City Development Authority stating that the subject of the aforementioned plot of land had been presented to the New Urban Communities Authority Board of Directors, including a proposal to amend the site of the company's project land to a new site. The proposed new site is located in the new Sheikh Zayed City Extension over an area of approximately 440 acres adjacent to the old plot of land and includes parts of it. In addition, it is more efficient than the original plot site, allowing an increase in the salable build up area in the project without compromising its components.

On November 24, 2021, a letter was received from the Sheikh Zayed City Development Authority stating that the New Urban Communities Authority Board of Directors decided to approve the replacement of the plot of land previously allocated to SODIC in the area of Presidential Decree No. (77) of year 2017 with a new plot of land which area is determined at 464.81 acres which has the same distinction for the original plot of land and the area. A suitable alternative period is added for the implementation of the project - the SODIC will benefit from the value of the fees previously paid for the issuance of Ministerial decree No. (980) dated December 19, 2019 in the issuance of the ministerial decree for the alternative land and without paying new administrative expenses. An annex to the contract is currently being edited that includes the enforceable rights and obligations of each party, provided that the rest of the conditions and controls remain as they were in the old contract.

On December 20, 2021, the plot of land with the new location was handed over to SODIC, accordingly the Group management has decided to recognize the financial impact of these amendments according to its best estimate in light of the information available on the date of issuing the financial statements.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

(19-2) North Cost projects costs

On March 8, 2018, the Company signed two co-development contracts for a residential and tourism project for two land plots of approximately 308 acres on the North Coast with the owners as follows:

- Contract signed with Owners Union – Shahin for the land plot of approximately 111 acres (the first plot).
- Contract signed with the Alammar Company for Urban Expansion for the land plot of approximately 197 acres (the second plot).

Accordingly, SODIC at its own expense and under its responsibility will implement, finance, market and sell the units of the two projects and all its inclusions and components, in addition to providing management and maintenance either directly or through third parties, and delivering on all other obligations as stipulated in the co-development contract and will accordingly share the revenue according to the defined percentages in the contract for each component of the project.

According to the first plot's contract the Company paid an amount of EGP 30 Million which represents down payment which will be settled during a three-year period in equal installments against Owners Union – Shahin share in the project revenues in accordance to the co-development contract.

On July 4, 2018, according to the co-development contract Sixth of October for Development and Investment Company "SODIC" notified the Owners Union – Shahin that Tabrouk Development Company, a 99% owned subsidiary of SODIC, will replace it in the above mentioned co-development contract dated March 8, 2018, and all rights and obligations will be transferred to Tabrouk Development Company from July 4, 2018.

The Group also paid EGP 25.9 million on behalf of Owners Union – Shahin to settle land installment for year 2018, and collected from Owners Union – Shahin EGP 3.3 million, thus the net amount paid up until December 31, 2020 amounted to EGP 52.6 million.

- According to the Presidential Decree No. 361 of 2020, Malaaz project land subordination has transferred to the New Urban Communities Authority, which in turn amended the Master plan of the entire North Coast. Accordingly, the project land which was being prepared for Malaaz project were affected by the new plans and the legal procedures for transferring the subordination of the project to the New Urban Communities Authority are in process (Note 11).
- On August 25, 2021, a new co- development contract was concluded between the Tabrouk Development Company and the Owners Union – Shahin, amending the previous contract to include the area of land belonging to Owners Union – Shahin after increasing it to 1 182 004 sq according to the new Masrter plan for the North Coast and as per the contract signed between the Owners Union – Shahin and the New Urban Communities Authority on September 12, 2021.

Under the new co-development contract, Tabrouk Company at its expense, is responsible to develop all the components of the project, including the internal infrastructure and facilities, except for the licensing and construction of 200 hotel rooms, including internal facilities and infrastructure, with the commitment of Tabrok Company, to deliver the facilities to The boundaries of the hotel plot.

The land cost as per the new co-development contract is as follows:

- a. A fixed payments with a total amount of EGP 2 659 509 000 to be paid over 24 equal semi-annual installments of EGP 110 812 875 each.
- b. A variable cost represnting the Owners Union – Shahin's percentage of the project's revenues as per the terms of the contract.

The balance due on the Owners Union – Shahin that was included in the work in progress as the variable consideration for the land of the Malaaz project amounted to EGP 52.8 million has been reclassified as debtors and other debit balances (long/short-term) as this amount will be recovered from the the Owners Union – Shahin's percentage in the revenues The project mentioned in item (b) above, over 8 consecutive quarterly installments of EGP 6 596 223 each, starting from the third quarter of 2021 until full payment.

The present value of the fixed payments of EGP 1 341 330 904 referred to in (a) above has been recorded as work-in-progress, as for the variable consideration mintioned in (b) above will be recorded as work-in-progress upon payment.

(21-1-1) This item represents the amount paid as a down payment to Heliopolis Housing and Development Company, this amount will be settled with Heliopolis Housing and Development Company's revenue share in the co-development contract pertaining to New Heliopolis City. Accordingly, the Company will act as a real estate developer for the land plot owned by Heliopolis Housing and Development Company with an area of 655 acres in New Heliopolis City. Heliopolis Housing and Development Company will earn a share of the revenue, with minimum guarantee amounting to EGP 5.01 billion. The two parties have agreed that the Company at its own expense and under its responsibility will implement, finance, market and sell the units of the project and all its inclusions and components, in addition to providing management and maintenance either directly or through third parties, and delivering on all other obligations as stipulated in the co-development contract and will accordingly share the revenue (according to the defined percentages in the contract for each component of the project).

The board of directors, in its session held on August 11, 2020, has agreed to amend the terms and conditions of the co-development contract with Heliopolis Housing and Development Company, including the amendment of the minimum guarantee according to the co-development contract by increasing the minimum guarantee, rescheduling the annual payments taking into consideration reducing the scheduled payments required of the company during the next five years while maintaining the same present value and the overall time period of the reimbursements, On December 21, 2021, an appendix has been signed to amend some of the terms and conditions of the co-development contract.

(21-1-2) This balance represents the company's share of the collected amounts from customers in the joint accounts held by the banks for SODIC East project. These balances are restricted unless agreed upon by both the developer and the owner in accordance with the contract terms of the joint bank accounts between the company as a developer, the bank, and the owner

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

(21-1-3) The balance represents maintenance deposits collected from customers, which have been invested in time deposits and interest-bearing current accounts for the purpose of financing the regular maintenance expenses related to the delivered units, and cannot be used for any other purpose.

(21-1-4) SODIC for Securitization S.A.E., SODIC's wholly-owned subsidiary announced on July 27, 2021 that it has successfully concluded its first securitization transaction by issuing an EGP 343 million securitization bond backed by a receivables portfolio of some EGP 384 million representing future instalments for 753 delivered units in SODIC's East Cairo project Eastown Residences and North Coast project Caesar. The bond comprises two tranches with tenors of 13 and 36 months which were assigned investment-grade credit ratings of AA+ and A respectively from Middle East Ratings and Investor Services (MERIS).

The details and coupon rates of the tranches are as follows:

- Tranche A with an amount of EGP 235 million, a tenor of 13 months, a credit rating of AA+, and a fixed coupon rate of 9.55%.
- Tranche B with an amount of EGP 108 million, a tenor of 36 months, a credit rating of A, and a fixed coupon rate of 9.9%.

Accordingly, the group has securitized a value of EGP 384 million representing future instalments for 753 delivered units in SODIC's East Cairo project Eastown Residences and North Coast project Caesar from the portfolio of delivered units in accordance with the securitization portfolio transfer contract dated June 20, 2021, and the transfer procedures have been completed and the securitization implemented According to the approval of the Financial Supervisory Authority dated July 27, 2021.

As a result of the securitization process, the Group recognized securitization losses of EGP 11 810 897, financial assets of EGP 2 945 027 representing the net present value of future gains, as well as financial assets of EGP 24 million representing the retained value of 7% of the issued bonds to be held on account for the service of default, collected Immediately upon issuing a letter of guarantee in favor of the bond holders and the custodian

- (A) On June 15, 2010, SODIC Syria was established - a limited liability company – to acquire a 50% stake in Palmyra - SODIC Real Estate Development Co., Ltd. - a limited liability company - registered and operating in the Syrian Arab Republic. The direct investment cost amounts to EGP 243 Million. Due to the current political circumstances in the Syrian Arab Republic and the confiscation of assets and documents related to Palmyra - SODIC Real Estate Development Co by the state government, the management of SODIC addressed the Embassy of the Syrian Arab Republic in Egypt and commissioned a law firm to handle the issue and protect the interest of SODIC's shareholders. This situation coupled with the unstable political environment witnessed in Syria led SODIC's Board of Directors to take the view that the invested amounts in Syria are non-recoverable. As such, SODIC recognized a loss arising from the inability to recover its investments. The recognized impairment loss of the investment and the foreign accumulated translation differences amounted to EGP 481 051 416 as at December 31, 2013.

- The provision is formed for existing claims related to the Company's transactions with other parties. The Company's management reviews the provisions annually and makes any amendments if needed according to the latest agreements and negotiations with those parties.
- The Company did not disclose all of the information required by the Egyptian accounting standards with those parties as the management assumes that the disclosure of such information would seriously affect the company's negotiations with those parties.

42. Non - cash transactions

For the purpose of preparing the consolidated statement of cash flows for the financial year ended December 31, 2021, the effect of the following investment transactions was excluded as they are considered non - cash transactions:

	EGP
The value of finished commercial units transferred to investment properties from work in process.	200 179 071
The non-cash transaction of recognizing contract modification of the land of the 464 acres project in Sheikh Zayed Extension.	1 921 439 600
The present value of the plot of land that were previously ceded in West Cairo, and was repurchased and recorded as work in process, the land consideration was paid by post-dated checks "Notes payable" issued to the New Urban Communities Authority.	1 239 519 052
The present value of the unpaid part of the credits owed to land acquisition creditors representing the present value of the fixed consideration part of the price of June project land plot, which is included in works in progress.	1 351 573 275
The value of the fixed assets transferred from work in process.	220 529 498
Transfer from Investment properties to completed units ready for sale	7 228 675

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

43. Fair values

Fair values versus carrying values

Financial instruments for the group are, cash at banks and on hand, financial investments at amortized cost, customers, notes receivable and investments in equity instruments, suppliers, contractors, notes payable and other credit balances and monetary items included in debtors and creditors accounts.

The main purpose of these financial instruments is to provide funding for the activities of the group.

According to the valuation techniques followed in evaluating the assets and liabilities of the group, the carrying value of these financial instruments represent a reasonable estimate of their fair value.

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor, and market confidence and to sustain future development of the business.

The Board of Directors of the Parent Company monitors the return on capital, which the Company defines as net profit for the year divided by total equity. The Board of Directors of the Parent Company also monitors the level of dividends to ordinary shareholders.

There were no changes in the Company's approach to capital management during the year. In addition, The Company is not subject to externally imposed capital requirements.

44. Financial risk management

The Group is exposed to the following risks from its use of financial instruments:

- A. Credit risk
- B. Liquidity risk
- C. Market risk
- D. Currency risk
- E. Interest rate risk
- F. Other market price risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, as well as the Group management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Board of Directors of the Parent Company has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board also identifies and analyzes the risks faced by the Company, sets appropriate risk limits and controls, and monitors risks and adherence to limits.

The Group aims to develop a disciplined and constructive control environment through which all employees understand their roles and obligations.

a) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur financial loss. This risk is mainly associated with the Company's customers and other receivables.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the demographics of the Group's customer base, which includes the default risk of the industry which has less influence on credit risk.

All of the Group's revenues is attributable to sales transactions with a vast group of customers. Therefore, demographically, there is no concentration of credit risk.

The Group's management has established a credit policy under which each customer is subject to credit valuation before the Company's standard payment and delivery terms and conditions are offered to him. The Company obtains advance payments and cheques that cover the full sales value

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

in advance and before the delivery of units to customers. No previous losses were observed from transactions with customers.

Sales of units are made subject to retention of title clauses and the ownership title is transferred only after the collection of the full sales value. In the event of non-payment, the unit is returned to the Company and the amounts collected from customers are repaid on the date of the default after deducting a 5% to 10% of this value.

Investments

The Company manages the risk via conducting detailed investment studies which are reviewed by the Board of Directors. The Company's management does not expect any counterparty to fail to meet their obligations.

Guarantees

The group extends corporate guarantees to subsidiaries, when needed, after the approval of the Extra Ordinary General Assembly Meeting (EGM).

b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due.

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group ensures that it has sufficient cash on demand to meet expected operational expenses for an appropriate period including the cost of servicing financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

In addition, the Group maintains the following lines of credit:

- EGP 5 Million as a bank facility for one of the subsidiaries guaranteed by time deposits.
- A medium-term loan in the amount of EGP 1 570 Million.
- A medium-term loan in the amount of EGP 500 Million.
- A medium-term loan in the amount of EGP 2 570 Million for one of the subsidiaries.
- A medium-term loan in the amount of EGP 1 000 Million for one of the subsidiaries.

c) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the return.

d) Currency risk

The Group is exposed to currency risk on sales and financial assets that are denominated in foreign currencies. Such risk is primarily represented in USD and Syrian Lira.

In respect of monetary assets and liabilities denominated in other foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short- term imbalances.

The Company's investments in its subsidiaries are not hedged as those currency positions are considered long-term in nature.

The Parent Company does not enter into hedging contracts for foreign currencies.

e) Interest rate risk

The Company adopts a policy to limit the company's exposure for interest risk, therefore the company's management evaluates the available alternatives for finance and negotiates with banks to obtain the best available interest rates and credit conditions. Borrowing contracts are presented to the Board of Directors. The finance position and finance cost are periodically evaluated by the Company's management. The Company does not enter into hedging contracts for interest rates.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

f) Other market price risk

Equity price risk arises from available-for-sale equity securities, the management of the Group monitors the mix of equity securities in its investment portfolio based on market indices and the objective valuation of the financial statements related to these shares.

Material investments within the portfolio are managed on an individual basis and all buying and selling decisions are approved by the Company's Board of Directors.

The primary goal of the Company's investment strategy is to maximize investment returns. Management is assisted by external advisors in this regard.

In accordance with this strategy certain investments are designated as held for trading because their performance is actively monitored, and they are managed on a fair value basis.

44-1 Credit risk

The carrying amount of financial assets represents the maximum exposure to credit risk as at December 31, 2021 as follows

Notes to the consolidated financial statements for the financial year ended December 31, 2021

44-3 Currency risk

Exposure to currency risk

The Group's exposure to foreign currency risk for main currencies was as follows:

December 31, 2021

Description	USD	Euro	GBP
Cash at banks	21 563 363	158 676	16 913
Notes receivables	596 610	-	-
Creditors and other credit balances	(486 000)	-	-
Surplus of foreign currencies	21 673 973	158 676	16 913

December 31, 2020

Description	USD	Euro	GBP
Cash at banks	19 451 199	65 230	11 829
Notes receivables	596 610	-	-
Creditors and other credit balances	(486 000)	-	-
Surplus of foreign currencies	19 561 809	65 230	11 829

The following is the average exchange rates during the year:

	Average exchange rate during the year		Spot rate at the financial statements date	
	31/12/2021	31/12/2020	31/12/2021	31/12/2020
	EGP	EGP	EGP	EGP
USD	15.64	15.78	15.64	15.66
Euro	17.67	19.22	18.34	19.22
GBP	21.04	21.38	21.19	21.38

Sensitivity Analysis

A reasonably possible strengthening (weakening) of 5% other currencies exchange rate against Egyptian pound As of December 31, 2021 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

	Profit or Loss	
	Strengthening	Weakening
	EGP	EGP
USD	16 949 047	(16 949 047)
Euro	140 190	(140 190)
GBP	17 793	(17 793)
	17 107 030	(17 107 030)

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

A reasonably possible strengthening (weakening) of 5% other currencies exchange rate against Egyptian pound as of December 31, 2020 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

		Profit or Loss	
		Strengthening	Weakening
		EGP	EGP
USD		15 552 516	(15 552 516)
Euro		56 179	(56 179)
GBP		12 645	(12 645)
		15 621 340	(15 621 340)

44-4 Interest rate risk

At the date of consolidated financial statements, the interest rate profile of the Group's financial instruments was as follows: -

	Carrying amount	
	31/12/2021	31/12/2020
	EGP	EGP
<u>Financial instruments with a fixed rate</u>		
Financial assets	3 540 879 730	3 364 134 801
Financial liabilities	(965 763 480)	(212 705 696)
	2 575 116 250	3 151 429 105
<u>Financial instruments with a variable rate</u>		
Financial liabilities	(2 551 321 331)	(2 256 220 545)
	(2 551 321 331)	(2 256 220 545)

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. The Company does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the consolidated financial statements date would not affect the consolidated statement of profit or loss.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

48. Post-dated checks (off balance sheet)

The company maintains off balance sheet post-dated checks received from customers in accordance with contracts, those checks are related to undelivered units as follows:

	Note	31/12/2021	31/12/2020
	No.	EGP	EGP
Postdated checks – customer advances	(38)	15 749 028 042	13 061 687 999
Postdated checks – customer cancellations	(40)	322 014 183	-
Postdated checks maintenance installment	(40)	889 726 149	722 108 038
		16 960 768 374	13 783 796 037
These checks are due			
Checks due within 12 months	(20)	3 713 599 258	3 194 857 351
Checks due after one year – long term	(20)	13 247 169 116	10 588 938 686
		16 960 768 374	13 783 796 037

49. Legal status

There is a dispute between the parent Company and another party regarding the contract concluded between them on February 23, 1999 which is related to delivering this party a plot of land as a usufruct right for indefinite year of time and a return for an annual rental with a minimal amount for a total of 96 acres approximately and which has not been delivered up till this date as the management of this party did not abide by the detailed conditions of the contract. There are exchanged notifications concerning this land between the management of the parent Company and the management of this party. During 2009, this party raised a court case No. 3 of 2009 Civil 6th of October against the parent Company asking it for the delivery of the allocated land. A preliminary judgment was issued by the court in its session held on February 22, 2010, to refer this matter to experts and to delegate the Experts Office of the Ministry of Justice to embark this case and set a session to be held on April 26, 2010, for the expert to present his report. The session was postponed by the court several times, the latest on which to November 24, 2014. On that date, the 6 of October partial court decided to reverse its previous decree of proof procedures dated February 22, 2010 by refusing the case. On November 3, 2021, the Court of Appeal again decided to refuse the appeal. Consequently, the judgment mentioned in the November 24, 2014 session in favor of the Company became final.

On January 2, 2022, the aforementioned body appealed the above-mentioned ruling and registered to No. 20964 of 91 judicial year in order to cancel the contested ruling - issued in Appeal No. 218 of 123 judicial year at the November 3, 2021 session. The Company and its legal advisor see the strength of the Company's legal position as the contract did not enter into force from the grounds that the appellant failed to implement his contractual obligations represented in not obtaining the approval of the general assembly and the competent administrative authorities in accordance with the provisions of this contract.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

50. Incentive and bonus plan of the Parent Company's employees and managers

- On January 20, 2016 the extraordinary general assembly have approved the new Employees Stock Option Plan for executive board members and directors through granting shares with special conditions as per stated in the plan that part of the company's shares should be assigned to the employee stock option plan equal to 1% of the company's issued capital annually on five tranches for a period of six years and three months as per annex (1). These shares will be made available by using the special reserve- additional paid in capital, or reserves, or part of it, or retained earnings, or part of it for capital increase. The additional shares are to be issued to the employee stock option plan based on the approval of the Board of Directors as per the delegation granted by the company's extraordinary general assembly dated January 20, 2016. The granting of the employee stock option plan shares is to be based on a decision from the supervisory committee by the treasurer.
- The board of directors have decided on the meeting dated November 30, 2016 to increase the issued capital from EGP 1 355 638 292 to become EGP 1 369 194 672 by an amount of EGP 13 556 380 divided on 3 389 095 shares of par value EGP 4 per share, this capital increase is to be financed from the special reserve- Additional paid in capital, and to be fully utilized by the Employees Stock Option plan granted to the executives board members and the directors as per the option plan approved by the extraordinary general assembly dated January 20, 2016, which have decided to apply the Employees Stock Option Plan for the executive board members and directors through assigning shares with certain conditions. The commercial register was modified on February 5, 2017.
- The Board of Directors have decided on the meeting dated October 23, 2018 to increase the issued capital from EGP 1 369 194 672 to become EGP 1 396 715 488 by an amount of EGP 27 520 816 divided on 6 880 204 shares of par value EGP 4 per share, this capital increase is to be financed from the special reserve- Additional paid in capital, and to be fully utilized for the second and third sections from the sections of Employees Stock Option plan granted to the executives board members and the directors as per the option plan approved by the extraordinary general assembly dated January 20, 2016, which have decided to apply the Employees Stock Option Plan for the executive board members and directors through assigning shares with certain conditions, and delegate the board of directors to execute the procedures of the required increase to issue new shares to be utilized in the Employees Stock Option plan, The commercial register was modified on January 8, 2019.
- The board of directors have decided on the meeting dated September 7, 2020 to increase the issued capital from EGP 1 396 715 488 to become EGP 1 424 789 472 by an amount of EGP 28 073 984 divided on 7 018 496 shares of par value EGP 4 per share, this capital increase should be financed from the special reserve- Additional paid in capital, and to be fully utilized for the second and third sections from the sections of Employees Stock Option Plan granted to the executive board members and the directors as per the option plan approved by the extra ordinary general assembly dated January 20, 2016 as mentioned in details in note (31).

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

51. Important events that do not require adjusting the financial statements

COVID -19

During 2020 The WHO declared the emerging COVID-19 outbreak a global pandemic, as a result, across the globe, governments, businesses, and individuals took action to prevent and manage the spread of the virus, and to protect health and livelihoods of themselves and their communities.

Our first and foremost priority during this crisis was the safety and wellbeing of our staff, their families, and our residents, all while ensuring business continuity to deliver to all our stakeholders. We created a cross-functional response team that works around the clock to address these issues. The process has accelerated our plans for digitalization both internally and on client interactions as we put the safety and health of our people first, while maintaining full operations.

We continue to operate at normal levels while enforcing preventative measures and monitoring the situation very closely to proactively respond to new developments.

We believe that while the ongoing outbreak presents challenges, it also provides an opportunity to standout and distinguish ourselves. The strength and liquidity of our balance sheet strongly support us but more importantly, we believe that it is our credibility and track record of strong performance in turbulent times as well as our customer centric approach to the crisis that make us stand out in these times.

We operate in a sector with very strong local demand fundamentals that has proven its resilience in face of historical and current challenges, and we continue to believe in the long-term drivers of growth in our market. In light of our current knowledge and available information, we do not expect the emerging virus (COVID-19) to have an impact on the company's ability to continue in the foreseeable future.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

52. Basis of measurement

The consolidated financial statements have been prepared on historical cost basis except for the following:

- Financial assets and liabilities recognized at fair values through profits and losses.
- Financial assets and liabilities recognized at fair values through other comprehensive income.

53. Significant accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

53-1 Business combination

- The Group accounts for business combination using the acquisition method when control is transferred to the Group.
- The consideration transferred in the acquisition is generally measured at fair value, as are net values of the assets acquired where identifiable
- Any goodwill that arises is tested annually for Impairment. Any gain on a bargain purchase is recognized as profit or loss immediately.
- Transaction cost are expensed as incurred, except if related to the issue of debt or equity securities.
- The consideration transferred does not include amounts related to the settlement of pre-existing relationship. Such amounts are generally recognized in profit or loss.
- Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay a contingent consideration meets the definition of financial instrument as classified as equity, then it is not re-measured and settlement is accounted for within equity. Otherwise, other contingent considerations are re-measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognized in profit or loss.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

a) Subsidiaries

- Subsidiaries are entities controlled by the Group.
- The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.
- The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.
- Subsidiaries are represented in the following: -

<u>Subsidiary name</u>	<u>Country of Incorporation</u>	<u>Ownership</u>	
		<u>As at 31/12/2021</u>	<u>As at 31/12/2020</u>
		<u>%</u>	<u>%</u>
1- Sixth of October for Development and Real Estate Projects Company "SOREAL" - S.A.E	Egypt	99.99	99.99
2- Beverly Hills for Management of Cities and Resorts Co. - S.A.E (*)	Egypt	44.46	46.75
3- SODIC Garden City for Development and Investment Co. S.A.E	Egypt	50	50
4- Al Yosr for Projects and Real Estate Development Co. - S.A.E	Egypt	99.99	99.99
5- SODIC for Development and Real Estate Investment Co. – S.A.E	Egypt	99.99	99.99
6- SODIC Polygon for Real Estate Investment Co. - S.A.E	Egypt	100	100
7- SODIC for Golf and Tourist Development Co. - S.A.E	Egypt	100	100
8- Fourteen for Real Estate Investment Co. - S.A.E	Egypt	99.99	99.99
9- La Maison for Real Estate Investment Co. - S.A.E	Egypt	99.99	99.99
10- Tegara for Trading Centers Co. S.A.E	Egypt	95.24	95.24
11- Edara for Services of Cities and Resorts Co. –S.A.E	Egypt	99.97	99.97

15- Tabrouk Development Company (D)	Egypt	100	100
16- El Diwan for Real Estate Development Company	Egypt	100	100
17- SODIC for Clubs Company	Egypt	100	100

(*) During the year the Group sold 1 775 468 of its shares in Beverly Hills for Management of Cities and Resorts Co. without affecting the group control of the subsidiary.

(**) On June 15, 2010, SODIC Syria Co. a Syrian limited liability Co. was established for acquiring a 50% stake of the share capital of Palmyra - SODIC for Real Estate Development L.L.C, a limited liability company registered and operating in the Syrian Arab Republic.

b) Non-controlling interests

NCI are measured at their proportionate share of the acquirer's identifiable net assets at the date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

c) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognized in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

d) Investments accounted for equity method

Investments that are accounted for using the equity method comprise interests in associates and joint venture. And have no right to its assets and obligations for its liabilities associated with the arrangements.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

Associates are those entities in which the group has significant influence, but not control or joint control, over the financial and operating policies.

A joint venture is an arrangement in which the group has joint control, whereby the group has rights to the net assets of the arrangement.

Investments in associates and joint venture are accounted for using the equity method. They are initially recognized at cost, which includes transaction costs.

Subsequent to initial recognition, the consolidated financial statements include the group share of the profit or loss and OCI of equity-accounted investees.

e) Transaction elimination on consolidation

Intra - group balances and transactions, and any unrealised income and expenses arising from intra - group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

53-2 Foreign currency

a) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Assets and liabilities that are measured at fair value in a foreign currency are translated at the exchange rate when the fair value was determined.

Non - monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Foreign currency differences are generally recognized in profit or loss.

However, foreign currency differences arising from the translation of the following items are recognized in OCI:

- Financial assets at fair value through OCI (except on impairment, in which case foreign currency differences that have been recognized in OCI are reclassified to profit or loss).
- A financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective.
- Qualifying cash flow hedges to the extent that the hedges are effective.

b) Foreign Operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated at the exchange rates at the reporting date. The income and expenses of foreign operations are translated at the exchange rates at the dates of the transactions.

Foreign currency differences are recognized in OCI and accumulated in the translation reserve, except to the extent that the translation difference is allocated to NCI.

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to NCI.

When the Group disposes of only part of an associate or joint venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

53-3 Discontinued operation

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held – for - sale.

When an operation is classified as a discontinued operation, the comparative statement of profit or loss and OCI is re-presented as if the operation had been discontinued from the start of the comparative year.

53-4 Revenue from Contracts with Customers

- The Company applied the EAS No. 48 as of January 1, 2020. Information about the Company's accounting policies relating to contracts with customers is provided in five steps as identified (in Note No.5-B):
- Revenue from contracts with customers is recognized by the company based on five step module as identified in EAS No. 48:
 - Step 1: Determine the contract (contracts) with customer: A contract is defined as an agreement between two or more parties that meets the rights and obligations based on specified standards which must be met for each contract.
 - Step 2: Determine the performance obligations in contract: Performance obligations is a consideration when the goods and services are delivered.
 - Step 3: Determine the transaction price: Transaction price is the compensation amount that the Company expects to recognize to receive for the transfer of goods or services to customer, except for the collected amounts on behalf of other parties.
 - Step 4: Allocation of the transaction price of the performance obligations in the contract: If the service concession arrangement contains more than one performance obligation, the Company will allocate the transaction price on each performance obligation by an amount that specifies an amount against the contract in which the Company expects to receive in exchange for each performance obligation satisfaction.
 - Step 5: Revenue recognition when the entity satisfies its performance obligations.
- The Company satisfy the performance obligation and recognize revenue over time, if one of the following criteria is met: -
 - a) Company performance does not arise any asset that has an alternative use of the Company and the Company has an enforceable right to pay for completed performance until the date.
 - b) The Company arise or improves a customer-controlled asset when the asset is arise or improved.
 - c) The customer receives and consumes the benefits of Company performance at the same time as soon as the company has performed.
- For performance obligations, if one of the above conditions is met, revenue is recognized in the period in which the Company satisfies performance obligation.
- When the Company satisfies performance obligation by providing the services promised, it creates an asset based on payment for the contract performance obtained, when the amount of the contract received from customer exceeds the amount of the revenue recognized, resulting advance payments from the customer (contractual obligation)
- Revenue is recognized to the extent that is potential for the flow of economic benefits to the Company, revenue and costs can be measured reliably, where appropriate.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

- The application of Egyptian Accounting Standard No. 48 requires management to use the following judgements:

Satisfaction of performance obligation

- The Company should assess all contracts with customers to determine whether performance obligations are satisfied over a period of time or at a point in time in order to determine the appropriate method for revenue recognition. The Company estimated that, and based on the agreement with customers, the Company does not arise asset has alternative use to the Company and usually has an enforceable right to pay it for completed performance to the date.
- In these circumstances, the Company recognizes revenue over a period of time, and if that is not the case, revenue is recognized at a point in time for the sale of goods, and revenue is usually recognized at a point in time.

Determine the transaction price

- The Company has to determine the price of the transaction in its agreement with customers, using this judgement, the Company estimates the impact of any variable contract price on the contract due to discount, fines, any significant financing component in the contract, or any non-cash contract.

Control transfer in contracts with customers

- If the Company determines the performance obligations satisfaction at a point of time, revenue is recognized when control of related contract' assets are transferred to the customer.

- In addition, the application of Egyptian Accounting Standard No. 48 has resulted in:

Allocation of the transaction price of performance obligation in contracts with customers

- The Company elected to apply the input method to allocate the transaction price to performance obligations accordingly that revenue is recognized over a period of time, the Company considers the use of the input method, which requires recognition of revenue based on the Company's efforts to satisfy performance obligations, provides the best reference to the realized revenue. When applying the input method, the Company estimates efforts or inputs to satisfy a performance obligation, In addition to the cost of satisfying a contractual obligation with customers, these estimates include the time spent on service contracts.

Other matters to be considered

- Variable consideration if the consideration pledged in a contract includes a variable amount, then the Company shall estimate the amount of the consideration in which it has a right in exchange for transferring the goods or services pledged to the customer, the Company estimates the transaction price on contracts with the variable consideration using the expected value or the most likely amount method. This method is applied consistently throughout the contract and for identical types of contracts.

The significant funding component

- The Company shall adjust the amount for the contract pledged for the time value of the cash if the contract has a significant funding component.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

Revenue recognition

a. Real estate and land sales

- Revenue from sale of residential units, offices, commercial shops, service, and villas and for which contracts were concluded is recorded when upon transferring control to customers whether the said units have been completed or semi – completed (finished or semi-finished) at a value that reflects the expected value of the company in exchange for those units. To reflect those units / lands at a certain point of time.
- Revenues from sale of units/lands is recognized net after deducting the value of sales returns and deducting discounts granted to customers for early payment of future installments of the units over which control has transferred to customers.
- Revenues from sale of units/lands also includes the value of interest on installments collected during the financial year / period from previous years' sales.

The significant funding component

- The company collects advance payments and installments from customers, before the transfer of control over contracted units to customers as agreed in the contract, accordingly there is a significant financing component in these contracts, taking into account the length of time between the customer's payments and the transfer of control to him, and the interest rate prevailing in the market.
- The transaction price for those contracts is discounted using the interest rate implicit in the contract, and the company uses the rate that would have been used in the event of a separate financing contract between the company and the customer at the beginning of the contract, which is usually equal to the interest rate prevailing in the state at the time of the contract.
- The company uses the exception of the practical application for short-term payments received from customers. This means the amounts collected from customers will not be modified to reflect the impact of the significant financing component if the period between the transfer of control over the units, service or payment is a year or less.

b. Services revenue

Service revenue is recognized when the service is rendered to customers. No revenue is recognized if there is uncertainty for the consideration or its associated costs.

c. Rental income

Rental income is recognized on a straight-line basis over the lease term.

d. Interest income

Interest income is recognized using the accrual basis, considering the period of time and effective interest rate.

e. Commission revenue

Commission revenue is recognized in the consolidated statement of profit or loss according to the accrual basis of accounting.

f. Dividends

Dividends income is recognized in the consolidated statement of profit or loss on the date the Company's right to receive payments is established.

g. Construction contracts

Contract revenue includes the initial amount agreed in the contract plus any variations orders in contract work, claims and incentive payments to the extent that is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, contract revenue and expenses is recognized according to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized only to the extent of contract costs incurred that are likely to be recoverable. For construction contracts under process a provision for expected losses, if any, is immediately formed whenever such losses are determined.

Construction contract costs include all direct costs such as material cost, supplies, equipment

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

depreciation and labor cost also includes indirect costs incurred by company such as indirect labor and maintenance. Also the cost includes general and administrative expense directly attributable to such work.

The difference between the estimated revenue calculated based on the percentage of completion and the amount collected from the actual billing to the customer is recognized as "due from customers" within the current assets caption. In case that the actual collections from customers is exceeding the estimated revenues calculated based on percentage of completion the difference is recognized as a due to customers within the current liabilities.

h. Sale of goods revenue

Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. For export sales, transfer of risks and rewards of the goods sold occurs according to the shipping terms.

i. Gain on sale of investments

Gain on sale of financial investments are recognized when ownership transfers to the buyer, based on the difference between the sale price and its carrying amount at the date of the sale.

Revenue is measured at the fair value of the consideration received or receivable to the company, and revenue is realized when there is sufficient expectation that there are future economic benefits that will flow to the company, and that the value of this revenue can be measured accurately, hence no revenue is recognized in the event of uncertainty about the recovery of this revenue Or the costs associated with it.

53-5 Employee benefit

a) Short – term employee benefits

Short - term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b) Share – based payment arrangements

The grant (date fair value of equity) settled share - based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non - market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non - market performance conditions at the vesting date.

For share - based payment awards with non - vesting conditions, the grant - date fair value of the share - based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The fair value of the amount payable to employees in respect of SAR's, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the year during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SAR's. Any changes in the liability are recognized in profit or loss.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

c) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

The Group pays contributions to the Public Authority for Social Insurance for their employees based on the rules of the social insurance law no 79 for the year 1975. The employees and employers contribute under this law with a fixed percentage of wages. The Group's commitment is limited to the value of their contribution. And the Group's contribution amount expensed in profits and losses according to accrual basis.

The company also contributes to a group insurance program for its employees with one of the insurance companies. Accordingly, the insured employees receive end of service benefits when leaving the Company that will be paid by the insurance company. The contribution of the Company is limited to the monthly instalments. Contributions are charged to statement of profit or loss using the accrual basis. The program has been suspended starting from April 1, 2020 to December 31, 2020 according to the company's management decision and continued from January 2021.

53-6 Finance income and finance costs

The Group's finance income and finance costs include:

- interest income
- interest expense
- The foreign currency gain or loss on financial assets and financial liabilities
- The fair value loss on contingent consideration classified as a financial liability
- The net gain or loss on financial assets at fair value through profit or loss

Interest income or expense is recognized using the effective interest method. Dividend income is recognized in profit or loss on the date on which the group's right to receive payment is established.

53-7 Income Tax

Current tax and deferred tax are recognized as income or expense in the profit or loss for the year, except in cases in which the tax results from a process or an event that is recognized - at the same time or in a different year - outside the profit or loss, whether in other comprehensive income or in equity directly or business combination.

a) Current income tax

The current tax for the current year and prior years and that have not been paid are recognized as a liability, but if the taxes that have already been paid in the current year or prior years are excess of the value payable for these years, this increase is recognized as an asset. The taxable current liabilities (assets) for the current year and prior years are measured at expected value paid to (recovered from) the tax authority, using the current tax rates (and tax laws) or in the process to be issued by the end of the financial year. Dividends are subject to tax as part of the current tax. Tax assets and liabilities are set-off only when certain conditions are met.

b) Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognized for:

- The initial recognition of goodwill.
- The initial recognition of assets or liabilities in a transaction that:
 - a. Is not a business combination.
 - b. Does not affect neither accounting nor taxable profit (or loss).

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

- Temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.
- Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the company's future business plans. Deferred tax assets are reassessed at each reporting date, and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are set-off only if certain conditions are met.

53-8 Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the weighted average method. The cost also includes other expenses incurred by the company to bring the inventory to its location and its current condition.

The net realisable value is determined on the basis of the expected selling price under normal circumstances, minus the estimated costs required to complete the sale.

53-9 Units ready for sale

Units ready for sale are stated at cost or net realizable value, whichever is lower. Cost is calculated based on the product of the total area of the remaining units ready for sale on the reporting date multiplied by the average cost per meter. (The cost of the units includes land, utilities, construction, construction related professional fees, labour cost and other direct and indirect expenses). Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses.

53-10 Work in process

- a) All costs relating to uncompleted works are recorded in work in process account until the completion of the works. Work in process is stated in the consolidated balance sheet at cost or net realizable value whichever is lower. Costs include directly attributable cost needed to bring the units to the selling status.
- b) For variable land acquisition consideration, the company recognizes what was actually paid as part of the cost of work in progress, the cost is subsequently settled whether by increase or decrease according to actual payments and returns.

53-11 Property, plant and equipment

a) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

b) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

c) Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the (straight-line method) over their estimated useful lives for each item, and is generally recognized in profit or loss.

Land is not depreciated. Estimated depreciation rates for each type of assets for current and comparative years are as follow:

<u>Asset</u>	<u>Years</u>
Buildings and construction works	5-20
Caravans	5-10
Vehicles and transportation	5
Furniture and fixtures	4-10
Beach Furniture and fixtures	3-5
Office and communications equipment	5
Computer software	3
Solar power stations	25
Generators, machinery and equipment	2-5
Kitchen utensils	10
Wells, pumps and networks	4
Leasehold improvements	5 years or lease term whichever is lower
Solar stations	25
<u>Golf course assets</u>	
Constructions	20
Irrigation networks	15
Equipment and tools	15

53-12 Projects under construction

Projects under construction are recognized initially at cost. Cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Projects under construction are transferred to property, plant and equipment caption when they are completed and ready for their intended use.

53-13 Investments properties under development

Investments properties under development are recognized initially at cost. Cost includes all expenditures directly attributable to bringing the asset to a working condition for its intended use. Investments properties under development are transferred to Investments properties caption when they are completed and ready for their intended use.

53-14 Intangible assets and goodwill

a) Recognition and measurement

I. Goodwill:

Arising on the acquisition of subsidiaries is measured at cost less accumulated impairment losses.

II. Research and development:

- Expenditure on research activities is recognized in profit or loss as incurred
- Development expenditure is recognized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortization and accumulated impairment losses.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

III. Other intangible assets:

Other intangible assets, including patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

b) Subsequent expenditure

Subsequent expenditure is capitalized only when the intangible asset will increase the future economic benefits embodied in project, research, and development under construction which is recognized as intangible assets. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

c) Amortization

Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the (straight - line method) over their estimated useful lives, and is generally recognized in profit or loss.

Goodwill is not amortized.

53-15 Investment properties

This item includes properties held for rent or increase in its value or both of them, Investment property is initially measured at cost and subsequently at fair value with any change therein recognized in profit or loss.

Depreciation is charged to statement of profit or loss on a straight-line basis over the estimated useful lives of each component of the investment properties. The estimated useful lives are as follows:

<u>Asset</u>	<u>Years</u>
Leased units	20
Roads	20
Elevators	10
Agriculture and landscape	10
Air-conditions	5
Sound systems and cameras	2

Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in profit or loss.

53-16 Financial instruments

1) Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

2) Classification and subsequent measurement

Financial assets- The applied policy from January 1, 2020

On initial recognition, a financial asset is classified as measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect future cash flows.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

The accounting policies related to the application are similar to the accounting policies applied by the Company, with the exception of the following accounting policy, which came into effect starting from January 1, 2020.

Financial assets- Business Model Assessment: Policy applied from January 1, 2020

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

- How the performance of the portfolio is evaluated and reported to the Company's management; and
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for de-recognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest: Policy applied from 1 January 2020

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin. In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- Contingent events that would change the amount or timing of cash flows;
- Terms that may adjust the contractual coupon rate, including variable-rate features;
- Prepayment and extension features; and
- Terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual per amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

Financial assets – Subsequent measurement and gains and losses: Policy applied from January 1, 2020

Financial assets classified at FVTPL	Financial assets at FVTPL are measured at fair value. Changes in the fair value, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to profit or loss.

53-17 Share capital

1) Ordinary Shares

Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity. Income tax relating to transaction costs of an equity transaction are accounted for in accordance with EAS No. (24) "Income Tax".

2) Repurchase and reissue of ordinary shares (treasury shares)

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs is recognized as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from equity. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity and the resulting surplus or deficit on the transaction is presented within share premium.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

53-18 Impairment

1) Non-derivative financial assets

Policy applied from January 1, 2020

Financial instruments and contract assets

The Company recognizes loss allowances for ECLs on:

- Financial assets measured at amortized cost;
- Debt investments measured at FVOCI; and
- Contract assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- Debt securities that are determined to have low credit risk at the reporting date; and
- Other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.
- Loss allowances for trade receivables and lease receivables are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Company considers a financial asset to be in default when:

- The debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as releasing security (if any is held); or
- The financial asset is more than 90 days past due.

The Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract such as a default or being more than 90 days past due;
- The restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- It is probable that the borrower will enter bankruptcy or other financial reorganization; or
- The disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is two years past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

53-19 Provisions

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Provision for completion

A provision for completion of work is formed at the estimated value of the completion of the projects' utility works (relating to the units delivered to customers and the completed units according to the contractual terms and conditions and the completed units for which contracts were not concluded) in their final form as determined by the Company's technical department. The necessary provision is reviewed at the end of each reporting year until finalization of all the project works.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

53-20 Lease contracts

1) Determining whether the arrangement contains a lease contract or not

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. Initially or when evaluating any arrangement that contains a contract lease, the Company separates the payments and the other consideration which are required by the arrangement of the lease and those of other elements based on their relative fair values. If the Company concludes with a finance lease that it is not possible to separate the payments in a reliable manner, then the asset and the liability are recognized at an amount equal to the fair value of the underlying asset; Then the liability is reduced when the payments is fulfilled and the finance cost calculated on the obligation is recognized using the Company's additional borrowing rate.

2) Leased assets

Lease contracts for property, plant and equipment that are transferred in a large degree to the Company, all of the risks and rewards associated with the property are classified as finance leases. Leased assets are initially measured at an amount equal to the fair value of the fair value and the present value of the minimum lease payments, whichever is less. After initial recognition, the assets are accounted for according to the accounting policy applied to that asset.

Assets held under other contracts leases are classified as operating contracts leases and are not recognized in the Company's statement of financial position.

3) Lease payments

Operating leases' payments are recognized in profit or loss on a straight-line basis over the term of the lease. Received lease incentives are recognized as an integral part of the total lease expense, over the lease term.

The minimum lease payments of finance leases are divided between financing expenses and the reduction of unpaid liabilities. Finance charges are charged for each period during the lease period to reach a fixed periodic interest rate on the remaining balance of the obligation.

53-21 Cash and cash equivalents

As a basis for preparation of cash flow, cash and cash equivalents comprise cash at banks and on hand, checks under collection and time deposits, that have maturity date less than three months from the purchase date. Also Bank overdrafts that are repayable on demand are considered a complementary part of the Group's cash management.

53-22 Borrowing costs

Borrowing costs are recognized as an expense when incurred using the effective interest rate.

53-23 Interest –bearing borrowings

Interest – bearing borrowings are recognized initially at fair value, net of attributable transaction costs incurred. Borrowings are subsequently stated at amortized cost, any differences between cost and redemption value are recognized in the statement of profit or loss over the year of the borrowing using the effective interest rate.

53-24 Cost of sold lands

The cost of sold lands is computed based on the value of the net area of land sold in addition to its respective share in road areas as determined by the Company's technical management, plus its share of the open area cost as well as its share of infrastructure cost.

Sixth of October for Development and Investment Company "SODIC" - (An Egyptian Joint Stock Company)
Notes to the consolidated financial statements for the financial year ended December 31, 2021

53-25 Employees' profit sharing

As per the Companies Law, employees are entitled to receive not less than 10% of the distributed profits, after deducting a percentage to support the legal reserve, according to the rules proposed by the Company's board of directors and after the approval of General Assembly Meeting which should not exceed the total employees' annual salaries.

Employees' share in profit is recognized as dividends of profit and shown in the statement of changes in equity and as an obligation in the financial year at which the declaration has been authorized.

53-26 Earnings / (losses) per share

Earnings (losses) per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.
